Athletes and coaches should be discouraged from using direct-to-consumer genetic testing because of its lack of validation and replicability and the lack of involvement of a medical practitioner in the process. Sports Med ; High-performance sport is, by its nature, a competitive environment. Clear Am J Hum Genet ; Evolving knowledge in the field of genetic research has the potential to be used in sport, creating a new form of doping known as gene doping. Simona Giordano - - Oxford University Press. The Secret Principles of Genius: Direct-to-consumer genetic testing should be discouraged as there is high risk of misinterpretation of data, especially when there is no involvement of a skilled medical practitioner or counsellor in the process.
