I am a huge fan of Lisa Marie Rice, although I do find her books tend to be a bit formulaic, I do love her alpha heroes who never cross the line top alphaholeville. I was immersed in the story from the first page and wanted to tear up when it was done!

Shenormallydatesfellowscientists,butwhenshebakescookiesforhernew I'm hoping the upcoming Nightfire will put LMR back on track. Bit of a mystery behind the scenes. I thought the book would have been just as wonderful without it.
