We also get to meet up with Sespian again and we watch Sicarius act as the awkward parent who just wants to protect and help. The part about cannibalism had me literally on the floor laughing and this was my second time reading this book! These books pull you into the adventure until you forget your surroundings and I enjoy the world Buroker has created and I enjoy that this book is steampunkish but isn't set in an alternative history of the real world. The book ends on a major cliffhanger. The review must be at least 50 characters long. There's very little progression or development of Amaranthe, the main character, not sure whether that's because I bought it from Smashwords rather than Amazon, but I noticed three instances of "who's" where the author meant "whose", one "it's" instead of "its", "quaking" instead of "quacking" and one or two other errors. I've really enjoyed this series so far and can't wait to read the rest of it.
