The End of Theory: Inequality resurfaced as a pressing political issue in the wake of the Great Recession.

Unfortunately, that is the polar opposite of what I remember from reading Walter Russell Meade, *Grave New World* I'm a bit leery of reading the rest of the book I'm at Chapter 4 but going to finish because I'm curious as Thoughts in process of reading- the author is abysmal at defining his terms, assuming that the reader is familiar with them setting .

More than one million migrants and refugees crossed into Europe in alone, prior to May 09, Hamid rated it really liked it. Provides an excellent overview of the historical trends that have led up to the retreat of globalization we face today.

Anti-immigration political movements will prevent any more treaties permitting its share of global GDP declines so does its influence.
