Thank goodness this picked up in volume 2! The Beyond Hope story line was great. Onward to the next book!

I haven't read that book and don't intend to, and the entire issue felt like DC. So far this series has been trying to find its tone and legs, much like Red Lanterns. This is possibly the lightest-hearted series of the New 52 though I admit I haven't read them all. Meanwhile, all the lantern groups are being attacked. Beyond Hope is available for download from Apple Books. The art was very good. Let's hope for a culling.
